RICHARD SHUTLER JR.: BIBLIOGRAPHY 1950-2001.

(generally excluding book reviews, consultancy reports, seminars and conference papers)

This list of publications was largely compiled from copies of a number of early versions of Richard Shutler's *Cirriculum Vitae*. Its accuracy, in particular details from a number of regionally specific journals, was greatly enhanced by the work of Dr Kevin Kelly (University of Iowa), a former undergraduate student of Richard's at the University of Iowa. It may well have a number of missing entries but that is seen as somewhat inevitable in the case of an author who has published so widely over a period of more than 50 years.
