

New Zealand Archaeology Week

Public Talk ⁵¹

Identifying environmental change in Tāmaki Māori society

1400 - 1700AD

Dr Matt Felgate & Heritage New Zealand

Venue: Heritage New Zealand Northern Office

2 Durham Street East (Durham Lane) Level 3

Date / Time: Monday 3 April—6:00pm

Places are strictly limited so to secure your place P: 09 307 9920 or E: infonorthern@heritage.org.nz

This **free public presentation** by Auckland archaeologist **Dr Matt Felgate** explores the 'formative' period of early Tamaki Maori and will discuss archaeological models of societal change appropriate to the NZ context.

Recent work from a large roading project at **Panmure** attempts to develop methods of studying change using the ubiquitous archaeological materials of this period: shell midden and charcoal deposits and kumara pits.
